# STEMI Data Dictionary

| Element Name | Description | Acceptable Answers |
| --- | --- | --- |
| First Name | Patient's first name | |
| Last Name | Patient's last name | |
| Middle Name | Patient's middle name | |
| Gender (at Birth) | Patient's gender (at birth) | Male (M) or Female (F) |
| Birthdate | Patient's date of birth | MMDDYYYY |
| Date of ischemic symptom onset | The date on which the patient's ischemic symptoms began | MMDDYYYY |
| Location Of First Evaluation | Where Pt. was first evaluated | EMS, ED, PCI , Cath lab, ICU Other |
| Time of ischemic symptom onset | The time at which the patient's ischemic symptoms began | HHMM (military time) |
| Mode of arrival | The mode by which the patient arrives at the emergency department | Privately Owned Vehicle, Ground Ambulance, Air Ambulance |
| Date of first  ECG | The date on which  ECG was first performed ie: EMS, PCP, ED | MMDDYYYY |
| Time of first  ECG | The time at which ECG first performed ie: EMS, PCP, ED | HHMM (military time) |
| Pre-arrival notification | Did the transporting EMS agency notify the emergency department of an incoming STEMI patient? | Yes or No |
| Date of pre-arrival notification | Date on which the transporting EMS agency notified the emergency department of an incoming STEMI patient | MMDDYYYY |
| Time of pre-arrival notification | Time at which the transporting EMS agency notified the emergency department of an incoming STEMI patient | HHMM (military time) |
| Date of Arrival at Facility | The date the patient arrived at the Facility | MMDDYYYY |
| Time of arrival at Facility | The time at which the patient arrived at the Facility | HHMM (military time) |
| Date of first hospital ECG(Subsequent ECGw/STEMI or STEMI | The date on which an ECG was first performed on the patient in the hospital setting | MMDDYYYY |
| Time of first hospital ECG(Subsequent ECGw/STEMI or STEMI | The time at which an  ECG was first performed on the patient in the hospital setting | HHMM (military time) |
| DATE of first diagnostic ECG | The date at which the first diagnostic ECG was performed on the patient in the hospital setting | MMDDYYYY |
| TIME of first diagnostic ECG | The time at which the first diagnostic ECG was performed on the patient in the hospital setting | HHMM (military time) |

# STEMI Data Dictionary

| Date cath lab activated | The date on which the cath lab was activated | MMDDYYYY |
|---|---|---|
| Time cath lab activated | The time at which the cath lab was activated | HHMM (military time) |
| Date of patient's arrival in cath lab | The date on which the patient arrived in the cardiac catheterization lab. | MMDDYYYY |
| Time of patient's arrival in cath lab | The time at which the patient arrived in the cardiac catheterization lab. | HHMM (military time) |
| Door-to-needle total elapsed time | The time elapsed between the patient's arrival at the hospital to the time fibrinolytic agents were administered | HHMM (total elapsed time) |
| Door-to-balloon total elapsed time | The time elapsed between the patient's arrival at the hospital to the time primary percutaneuous coronary intervention is performed | HHMM (total elapsed time) |
| If transferred, door-in-door-out total elasped time | The time elapsed between the patient's arrival in the emergency department to the time the patient left the hospital to be transferred to another facility | HHMM (total elapsed time) |
